

Z3040x14 heavy duty radial drilling machine Single Column

Our Product Introduction

for more products please visit us on lathemach.com

Basic Information

- Place of Origin: CHINA
- Brand Name: BAISHUN
- Certification: CE for Radial Drilling Machine
- Model Number: Z3040
- Minimum Order Quantity: 1 Set
- Price: Negotiable
- Packaging Details: Export standard wooden case package
- Delivery Time: 30-35 work days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 100 Set per Month

Product Specification

- Product Name: Single Column Radial Drilling Machine
- Max Drilling Diameter: 40mm
- Spindle Travel(mm): 260mm
- Radial Rotation Angle: 360°
- Precision: Accuracy
- Main Motor: 2.2Kw
- Power Supply: 220V/380V/415V
- Function: Tapping Holes
- Spindle Taper: Morse Taper 4
- Color: Customized
- Highlight: heavy duty radial drilling machine , radial drilling machine Single Column, Z3040x14

Product Description

Product Overview

Z3050*16/1 Hydraulic Deep Hole Radial Drilling Machine Price

For the radial drilling machine, during in the process equipment conditions, can also be used for boring. According to the clamping structure of machine tools, radial drills can be divided into hydraulic radial drilling machines and mechanical radial drilling machines. Among all kinds of drilling machines, radial drilling machines are easy to operate, flexible, widely applicable and typical, especially suitable for single piece or batch production of holes with large porous parts. They are common machine tools in general machining workshops.

Radial drilling machine is widely used in single piece and small and medium batch production to process holes of workpieces with large volume and weight. The radial drilling machine has a wide processing range and can be used to drill various screw holes, threaded bottom holes and oil holes of large workpieces. The radial drilling machine is used to process small and medium-sized holes on heavy or porous workpieces. It is mainly composed of a base, a column, a rocker arm, a spindle box, a spindle worktable, etc.

1. Clamping for assemblies and speed change of spindle achieved by hydraulic power.
2. The Main parts are made by machine center with high precision and efficiency, ensuring reliability and high quality.
3. Integrating technology for casting parts is excellent, adopting casting equipment, ensuring high quality of material for basic parts.
4. Spindle parts are made by special high quality steel heat treatment ensuring high strength and durability.
5. Main gears are all precision grind, ensuring high precision and low noise.

Product Parameters

| Specification | Z3032X10 | Z3040X14 | Z3050X16 | Z3063X18 | Z3080X20 |
|---|----------|----------|----------|----------|----------|
| Max drilling diameter (mm) | 32 | 40 | 50 | 63 | 80 |
| Distance between spindle axis and column (mm) | 170-1100 | 260-1210 | 350-1500 | 400-1600 | 550-1600 |
| Spindle travel (mm) | 120 | 260 | 350 | 400 | 450 |
| Spindle taper (morse) | MT4 | MT4 | MT5 | MT6 | MT6 |
| Number of spindle speeds | 6 | 12 | 12 | 16 | 16 |
| Steps of spindle feeds | 3 | 3 | 4 | 16 | 16 |
| Radial rotation angle | 360 | 360 | 360 | 180 | 180 |
| Main motor (kw) | 1.5 | 2.2 | 4 | 5.5 | 7.5 |

Why Choose Us?

Baishun machinery is professional machine tool manufacturer in China Mainland, we have more than 30 year experience in product design and manufacture, we always follow the best Technology design & manufacture idea in our products, try our best to provide our customer the most cost-effective machine tool and accessories.

Henan Baishun Machinery Equipment Co., Ltd.
