

## Z3050 Large Industrial Radial Arm Drill Press For Sale Key Machines Metal Hydraulic

Our Product Introduction

for more products please visit us on [lathemach.com](http://lathemach.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: BAISHUN
- Certification: CE for Radial Drilling Machine
- Model Number: Z3050
- Minimum Order Quantity: 1 Set
- Price: Negotiable
- Packaging Details: Export standard wooden case package
- Delivery Time: 30-35 work days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 100 Set per Month

### Product Specification

- Product Name: Hydraulic Radial Arm Drilling Machine
- Max Drilling Diameter: 50mm
- Spindle Travel(mm): 350mm
- Radial Rotation Angle: 360°
- Precision: High Precision
- Main Motor: 4Kw
- Power Supply: 220V/380V
- Function: Metal Drilling
- Application: Metal Drill Works
- Color: Red Or Green
- Highlight: Z3050, large radial arm drill press, radial drill press for sale

## Product Description

### Z3050X16 Hydraulic Mechanical Metal Driller Lathe Radial Drilling Machine

#### Product Overview

#### Small Manual Heavy Duty Hydraulic Radial Drilling Machine Z3032

The radial drilling machine is a tool used for making holes. It can perform various tasks like drilling, reaming, tapping, fixing the end face, and more. The Z3050\*16 radial drilling machine is a versatile tool widely used in the manufacturing industry to process small parts. It is suitable for drilling, reaming, countersinking, and tapping. Additionally, it can also be used for boring. Radial drills can be grouped into two types based on how they are clamped: hydraulic radial drilling machines and mechanical radial drilling machines. Among all the drilling machines, radial drilling machines are user-friendly, flexible, and commonly used in general machining workshops. They are particularly suitable for making holes in large workpieces with many cavities, whether it's for a single piece or a batch production.

1. Gather mechanical-electrical-hydraulic functions, use extensively.
2. With wide range of speed and feed, with manual, power and fine feeds.
3. The feed of machines are very easily engaged and disengaged at any time.
4. With safety and reliable feed safety machine, all parts easy operation and change.
5. All controls centralized on the head stock easy operation and change.
6. Spindle parts are made by special high quality steel heat treatment ensuring high strength and durability.
7. Main gears are all precision grind, ensuring high precision and low noise.

## Product Parameters

Specification	Z3032X10	Z3040X14	Z3050X16	Z3063X18	Z3080X20
Max drilling diameter (mm)	32	40	50	63	80
Distance between spindle axis and column (mm)	170-1100	260-1210	350-1500	400-1600	550-1600
Spindle travel (mm)	120	260	350	400	450
Spindle taper (Morse)	MT4	MT4	MT5	MT6	MT6
Number of spindle speeds	6	12	12	16	16
Steps of spindle feeds	3	3	4	16	16
Radial rotation angle	360	360	360	180	180
Main motor (kw)	1.5	2.2	4	5.5	7.5

## Why Choose Us?

Baishun machinery is professional machine tool manufacturer in China Mainland, we have more than 30 year experience in product design and manufacture, we always follow the best Technology design & manufacture idea in our products, try our best to provide our customer the most cost-effective machine tool and accessories.

**Henan Baishun Machinery Equipment Co., Ltd.**
