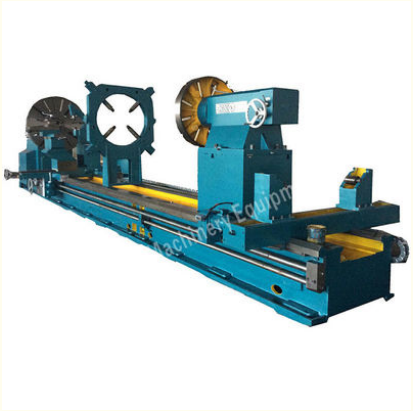
Large Size Universal Metal Lathe Torno Horizontal Lathe Machine Heavy Duty

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: BAISHUN
- Certification: ISO
- Model Number: CW61250
- Minimum Order Quantity: 1 Set
- Price: Negotiation
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 65 working days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 20 Set/Sets per Month



Product Specification

- Product Name: Universal Metal Lathe Torno Heavy Duty Horizontal Lathe Machine
- Type: CW61250
- Max.swing Over Bed: 2500mm
- Max.swing Over Carriage: 2100mm
- Max.weight Of Workpiece: 16000kg
- Display: DRO
- Key Words: Heavy Duty Horizontal Lathe Machine
- Bed Width: 1100mm
- Power: 22kw
- Color: Customized
- Highlight: **large metal lathe**, **horizontal industrial lathe**, **metal lathe machine**

Product Description

High Precision Universal Metal Lathe Torno Heavy Duty Horizontal Lathe Machine

Product Introduction:

The conventional heavy-duty horizontal lathe, it suitable for high speed steel hard alloy cutting tool, various materials shaft parts, cylindrical and disk-shaped parts processing. To achieve turning cylindrical, face grooving, cutting slot, cutting off, boring and turning inside and outside the cone and other processes.

The main transmission of the horizontal lathe machine for DC motor drive, the spindle speed is stepless speed regulation. So in the processing of different step and the work piece, it can obtain the reasonable cutting speed.
The feed system for the separation of transmission, use of SCR infinitely variable speed, wide variable speed range, under different processing conditions, it is able to choose the most reasonable feed amount, Machine tool guide ways after the processing of high frequency quenching and grinding process, it can improve the surface hardness and precision of machine tool, also have long service life.

Key Features:
1. The side wall of bed is constructed with double-rib Plates, and the shape of internal ribs is of box type and bevel ribs combination. The rigidity is higher than that fo ordinary lathes. The precision is stable. And these lathes can carry out strong force cutting.
2. On apron, there is a device ,operated by a single lever, used for rapid traverse of the carriage . Spindle's braking and rotating direction change is controlled by hydraulic system, or by hand operation, all to user's choice.
3. The saddle guide way is glued by "TSF" soft belt wear resisting materials.
4. On user's demand, we can equip the lathe with automatic feeding mechanism .The top slide can be used independently for turning of short cone. In combination with longitudinal feeding, it can also turn long taper surface.

Company Profile:

Henan Baishun Machinery Equipment Co., Ltd. is a professional manufacturer of machinery equipments with a long history. We can manufacturer manual kind of horizontal lathe machine; CNC lathe machine; vertical lathe machine; roll lathe machine; facing lathe machine; deep hole drilling and boring machine, Plano miller, etc. Recent years we have new products, named Pole erection machine with post hole digger, which is very suitable in digging earth & erection of Electrical Poles. This compact solution can be quite useful for Pole erection as it helps in reduction of labour and increases the number of poles erected per day thereby significantly reducing the project time drastically. More safeties are provided in this machine compare to other local pole erector machines.

Our services& advantage:

Our Services

We can provides 7x24-hour online pre-sale service, engineer follow-up order service, and logistics delivery operation service, And also we can provide installation services. In addition, with more than 10 years experience of various markets, we can help customers successfully complete a

series of services from purchasing to goods Customs clearance, thereby saving times and also reducing customers' costs in all aspects.

Our advantage:
1: With CE, ISO certification.
2: Full production tracking.
3: Professional engineers can guarantee the highest quality.
4: More suppliers as alternatives, guarantee your lowest and competitive price.
5: Sales fstaff with more than 10 years experience, will answer your pre-sales and after-sales questions.
6: OEM production is available, to meet customer needs
7. Low MOQ (1 unit) is available.
8. 24 hours technical support.

Warranty period:

During warranty period (one year), if you have any parts broken because of qulity problem,we will supply to you free of charge by express.

Out of warranty period, if you have any question, you can contact us, we will supply our best service to you as usual.

1. Technical support online service provided .
2. Technical files service provided.
3. Machine operation video provided
4. On-site training service provided.
5. Spare parts replacement and repair service provided.
6. All of the questions will be replied within 24 hour s
