

High Precision Gear Head Lathe Conventional 12 Meter Horizontal Manual Lathe Machine

Our Product Introduction

for more products please visit us on lathemach.com

Basic Information

- Place of Origin: China
- Brand Name: BAISHUN
- Certification: CE, ISO
- Model Number: CW61110Q
- Minimum Order Quantity: 1 Set
- Price: Negotiation
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 45 working days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 20 Set/Sets per Month

Product Specification

- Product Name: High Precision Easy Maintenance Gear Head Lathe Conventional 12 Meter Horizontal Manual Lathe Machine
- Type: CW61110Q
- Swing Diameter Over Carriage: 780mm
- Swing Diameter Over Bed: 1100mm
- Max. Weight Of Workpiece: 2500kg
- Spindle Hole Diameter: 105mm
- Guide Rail Width: 600mm
- Function: Metal Turning
- Highlight: High Precision Gear Head Lathe, Horizontal Gear Head Lathe

Product Description

High Precision Easy Maintenance Gear Head Lathe Conventional 12 Meter Horizontal Manual Lathe Machine

Product Introduction:

Manual Chuck

Choose a 3 or 4 jaw manual chuck according to your needs for the CW Heavy Duty Lathe.

The chuck is a mechanical device that securely holds a workpiece on a machine tool. It uses movable jaws evenly distributed on the chuck body to clamp and position the workpiece.

Gear Spindle Box

Experience mechanical speed changes and strong rigidity with the CW Heavy Duty Lathe's gear spindle box, enabling powerful cutting.

The gear spindle box is a mechanism that changes the main motion speed of the machine tool, such as the spindle speed or the worktable's reciprocating strokes per minute. It can be installed separately or integrated with other mechanisms as part of the machine tool.

Tool Post

Opt for the CW Heavy Duty Lathe's 4-station manual tool post, which can be accompanied by an optional tool post cover at an additional cost.

The tool post is a component of the machine, such as a lathe, where the tool carriage moves perpendicular to its main direction of travel.

Quenching Guide

Achieve greater stability and load capacity with the CW Heavy Duty Lathe's quenching guide, which features a wider bed width.

Quenching the lathe guide rails involves a metal heat treatment process. The guide rails are heated to an appropriate temperature and maintained for a specific duration before being rapidly cooled in a quenching medium. This process significantly enhances the guide rail's service life, wear resistance, and damage resistance, thereby improving lathe production efficiency.

CW61110Q/CW62110Q Series Lathe Machine(2.5 tons load capacity):

Swing over bed: 1100mm;

Swing over cross slide: 800mm;

Processing length: it's up to customer's requirements;

Bed width: 600mm;

Load capacity: 2.5 tons;

Spindle bore: 105mm [Optional 130mm];

Main motor power: 11kw.

REAL SHOOTING

PRODUCTION WORKSHOP

CAREFUL AND RIGOROUS, PRECISE ASSEMBLY, EVERY PLACE IS DELICATE
TEEVERY SILK IS OUR DEDICATED EFFORT,

Q&A:

Q1. How do I get a quote?

A: Leave a message with your purchase requirements and we'll get back to you ASAP. You can also reach us directly through Trade manager (Click Chat Now) or by phone.

Q2. Why choose our lathe machine?

A:1. Top quality at a competitive price

20 years of exporting experience

CE and ISO certified

24/7 online service (Wechat, Whatsapp, Trade manager)

One-year warranty for quality assurance

Q3. How can I select the right machines?

A: Please provide your specifications or product drawings, and we'll help you choose the most suitable machines.

Q4. What is your delivery time?

A: Generally, it will take 15 to 60 days after receiving your advance payment. The specific delivery time depends on the items and quantity of your order.

Q5. Are you a factory or a trading company?

A: We have extensive experience in manufacturing lathe machines. As a factory direct supplier, we don't involve any middlemen or companies, which allows us to offer you the best factory direct price.

Q6. Are standard accessories included in the price?

A: Yes, all our prices include the listed standard accessories.

Q7. What are your warranty terms?

A: We provide a 12-month warranty period starting from the machines' bill of landing date. If any parts are found to be defective, we'll provide replacements.

We are a direct-sale lathe machine manufacturer, not a trading company, which means we can offer you the best prices.
