

## Cw61110q Horizontal Heavy Duty Lathe Machine 3000mm

Our Product Introduction

for more products please visit us on [lathemach.com](http://lathemach.com)

### Basic Information

- Place of Origin: China
- Brand Name: BAISHUN
- Certification: CE, ISO
- Model Number: CW61110Q
- Minimum Order Quantity: 1 Set
- Price: Negotiation
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 45 working days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 20 Set/Sets per Month

### Product Specification

- Product Name: Universal Lathe Cw61110q Chinese Horizontal Heavy Duty Lathe Machine 3000mm
- Type: CW61110Q
- Swing Diameter Over Carriage: 780mm
- Swing Diameter Over Bed: 1100mm
- Max. Weight Of Workpiece: 2500kg
- Spindle Hole Diameter: 105mm
- Guide Rail Width: 600mm
- Key Words: Horizontal Lathe
- Highlight: Horizontal Heavy Duty Lathe Machine, Cw61110q Heavy Duty Lathe Machine

## Product Description

### Universal Lathe Cw61110q Chinese Horizontal Heavy Duty Lathe Machine 3000mm

#### Product Introduction:

Product Application (lathe machine):

This lathe machine is primarily designed for precision turning of round cylindrical, conical, and other rotating parts. It can handle various commonly used metric, inch, module, and diametral pitch threads, as well as perform broaching, oil groove cutting, and keyway machining.

With its versatility, this lathe machine is capable of internal and external turning, tapering, and machining different types of threads, including metric, module, and inch threads. It is also suitable for drilling and creating oil slots.

This machine is suitable for machining steel, casting, nonferrous metals, and more.

It achieves dimensional accuracy of IT6-IT7 with excellent surface roughness.

Equipped with a handle breaker, this machine is easy to operate, ensuring safety and reliability.

## HORIZONTAL LATHE MACHINE

FACTORY DIRECT SELLING/ EXCELLENT QUALITY PROFORMANCE WITH BEST PRICES

#### CW61110Q/CW62110Q Series Lathe Machine( 2.5 tons load capacity):

Swing over bed: 1100mm;

Swing over cross slide: 800mm;

Processing length: it's up to customer's requirements;

Bed width: 600mm;

Load capacity: 2.5 tons;

Spindle bore: 105mm [Optional 130mm];

Main motor power: 11kw.

REAL SHOOTING

# PRODUCTION WORKSHOP

CAREFUL AND RIGOROUS, PRECISE ASSEMBLY, EVERY PLACE IS DELICATE  
TEEVERY SILK IS OUR DEDICATED EFFORT,

Our metal lathes are mainly suitable for cutting the workpiece inside and outside of shafts, discs and cylindrical, taper surfaces, arc surfaces and other rotating parts, machinable various commonly used metric, inch, module and diametral pitch thread, and boring holes, teaming holes and machining noncircular curved surfaces ect.

1. We are a metal lathe manufacturer, not a trading company, we can give you factory direct price, no middle company add the price, so you can receive the lowest price from us.
2. Our casting is of top quality, our foundry is also supplier of Japan and Germany famous brand company.
3. Lathe guideways are quenched! Guideway hardness is more than HRC52.
4. Quenched guideways has following advantages: higher abrasive resistance, higher precision and longer life!
5. Gears are through high frequency quenching and grinding treatment, improving the abrasive resistance and service life and reduce the noise when processing!

**We are a direct-sale lathe machine manufacturer, not a trading company, which means we can offer you the best prices.**
