

Cw61110q Horizontal Lathe Machine 1100mm Turning Diameter Smtcl Lathe With 1.1 Meters Swing

Our Product Introduction

for more products please visit us on lathemach.com

Basic Information

- Place of Origin: China
- Brand Name: BAISHUN
- Certification: CE, ISO
- Model Number: CW61110Q
- Minimum Order Quantity: 1 Set
- Price: Negotiation
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 45 working days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 20 Set/Sets per Month

Product Specification

- Product Name: Cw61110q 1100mm Turning Diameter Smtcl Lathe With 1.1 Meters Swing Horizontal Lathe Machine
- Type: CW61110Q
- Swing Diameter Over Carriage: 780mm
- Swing Diameter Over Bed: 1100mm
- Max. Weight Of Workpiece: 2500kg
- Spindle Hole Diameter: 105mm
- Guide Rail Width: 600mm
- Key Words: Horizontal Lathe
- Highlight: Cw61110q Horizontal Lathe Machine, 1100mm Turning Diameter Horizontal Lathe Machine, Smtcl Lathe

Product Description

Cw61110q 1100mm Turning Diameter Smtcl Lathe With 1.1 Meters Swing Horizozntal Lathe Machine Product Introduction:

This machine tool is mainly responsible for various turning tasks. It can turn the end faces, outer circles, inner holes, metric threads, inch threads, module threads, and diametral pitch threads of various parts. The upper tool holder can be used separately to shorten the taper of a motor vehicle, and the upper tool holder can also be used in conjunction with the longitudinal feed to lengthen the taper of a motor vehicle. In addition, it can also undertake drilling, boring and other processes. The machine tool has high power, high speed, and strong rigidity. Hard alloy cutting tools can be used for powerful turning and processing of various ferrous and non-ferrous metals.

Our lathe features a solid cast bed structure with a well-designed internal steel board layout, ensuring high rigidity. The machine is equipped with a 250 cast iron and undergoes high-frequency quenching and guide rail mill grinding processes, resulting in a stable and precise tool with strong cutting capabilities.

The sliding box has a fast and easy-to-use structure, allowing for single-handle visualization operation. The spindle and reversing shift can be controlled hydraulically or manually, giving users flexibility in their preferred control method.

The machine tool rest is equipped with a single motor for turning cylinders, as well as the option to use the tool rest for longitudinal feed turning. It is suitable for processing large and medium-sized steel and non-ferrous metal parts, allowing for cylindrical turning, inner hole machining, face cutting, drilling, boring, and nesting.

The machine tool is powerful and rigid, with a wide spindle speed range suitable for strong or high-speed cutting. The spindle brake and shift can be controlled hydraulically, ensuring sensitive and reliable braking. The forced lubrication system with pressure oil in the headstock cabinet allows for easy speed conversion, and users have multiple speed options to choose from. The sliding box is designed with a security structure to prevent damage to the lathe from overloading.

HORIZONTAL LATHE MACHINE

FACTORY DIRECT SELLING/ EXCELLENT QUALITY PROFORMANCE WITH BEST PRICES

CW61110Q/CW62110Q Series Lathe Machine(2.5 tons load capacity):

Swing over bed: 1100mm;

Swing over cross slide: 800mm;

Processing length: it's up to customer's requirements;

Bed width: 600mm;

Load capacity: 2.5 tons;

Spindle bore: 105mm [Optional 130mm];

Main motor power: 11kw.

Specification:

Technical items / Model	CW6163 / CW6263	CW6180Q / CW6280Q	CW6180B / CW6280B	CW61110Q / CW62110Q	CW61125Q / CW62125Q	CW61125B	CW61160B	CW61160	CW61200	CW61250

REAL SHOOTING

PRODUCTION WORKSHOP

CAREFUL AND RIGOROUS, PRECISE ASSEMBLY, EVERY PLACE IS DELICATE
TEEVERY SILK IS OUR DEDICATED EFFORT,

Q&A:

Q1. How do I get a quote?

A: Leave a message with your purchase requirements and we'll get back to you ASAP. You can also reach us directly through Trade manager (Click Chat Now) or by phone.

Q2. Why choose our lathe machine?

A: 1. Top quality at a competitive price

20 years of exporting experience

CE and ISO certified

24/7 online service (Wechat, Whatsapp, Trade manager)

One-year warranty for quality assurance

Q3. How can I select the right machines?

A: Please provide your specifications or product drawings, and we'll help you choose the most suitable machines.

Q4. What is your delivery time?

A: Generally, it will take 15 to 60 days after receiving your advance payment. The specific delivery time depends on the items and quantity of your order.

Q5. Are you a factory or a trading company?

A: We have extensive experience in manufacturing lathe machines. As a factory direct supplier, we don't involve any middlemen or companies, which allows us to offer you the best factory direct price.

Q6. Are standard accessories included in the price?

A: Yes, all our prices include the listed standard accessories.

Q7. What are your warranty terms?

A: We provide a 12-month warranty period starting from the machines' bill of landing date. If any parts are found to be defective, we'll provide replacements.

We are a direct-sale lathe machine manufacturer, not a trading company, which means we can offer you the best prices.
