

150mm Tail Stock Center Travel Heavy Duty Machining Capacity Flat Bed CNC Lathe Machine

Our Product Introduction

for more products please visit us on lathemach.com

Basic Information

- Place of Origin: Henan, China
- Brand Name: BAISHUN
- Certification: ISO
- Model Number: CK6180
- Minimum Order Quantity: 1 set
- Price: Negotiation
- Packaging Details: Export standard wooden case package, or as customers' requirement.
- Delivery Time: 45 work days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50 Set/Sets per Month

Product Specification

- No. Of Spindles: Single
- X/Z Rapid Traverse: 4/6m/min
- Machining Capacity: Heavy Duty
- Max. Length Of Workpiece (mm): 3000
- Usage: High Precision CNC Lathe
- Description: The CNC Lathe Is A Machine Tool That Is Used For Shaping And Turning Metal Workpieces. It Use A Variety Of Cutting Tools, Such As Drills, Boring Tools, And Turning Tools, To Remove Material From The Workpiece. The Machine Is Programmed Using Software That
- Product Name: High Speed Stable Horizontal Flat Bed CNC Turret Turning Lathe Machine

Product Description

Product Description:

As one of the leading CNC lathe manufacturers, we understand the importance of precision and efficiency in metalworking processes. Our CNC lathe machines are programmed using software that specifies the size and shape of the workpiece, as well as the cutting operations to be performed. This ensures that each workpiece is produced with the same high level of accuracy, making our CNC lathe machines an essential tool for modern manufacturing.

The Flat Bed CNC Lathe Machine is a two-axis machine that offers a wide range of cutting tools, including drills, boring tools, and turning tools. This makes it capable of handling a variety of metalworking processes with ease. The machine is designed to be highly precise and efficient, which reduces the risk of errors and minimizes downtime.

In summary, the Flat Bed CNC Lathe Machine is a highly precise and efficient machine that is specifically designed to meet the needs of modern manufacturing. It is a horizontal lathe machine that is capable of producing complex parts with tight tolerances and high accuracy. As one of the leading CNC lathe manufacturers, we are committed to providing our customers with the highest quality machines that offer precision and efficiency in all metalworking processes.

Features:

Product Name: Flat Bed CNC Lathe Machine

Product Category: Flat Bed CNC Lathe Machine

X/Z Rapid Traverse: 4/6m/min

Number Of Axes: 2

Max. Length Of Workpiece (mm): 3000

Max. Spindle Speed (r.p.m): 1500 R.p.m

This Flat Bed CNC Lathe Machine is a powerful cnc turning lathe that performs well for all your cnc lathe tooling needs. It is a high quality cnc horizontal lathe that is great for precision machining.

Technical Parameters:

Product Name:	High Speed Stable Horizontal Flat Bed CNC Turret Turning Lathe Machine
Product Category:	Flat Bed CNC Lathe Machine
Usage:	High Precision CNC Lathe
No. Of Spindles:	Single
Spindle Bore(mm):	52/80/105
Max. Length Of Workpiece (mm):	3000
Structure:	Flat Bed Lathe
Repeatability (X/Y/Z) (mm):	±0.006
Tail Stock Center Travel:	150mm
X/Z Rapid Traverse:	4/6m/min

Looking for a reliable and affordable flat bed CNC machine? Check out our flat bed CNC lathe machine, which offers high precision and stability. Contact us today to learn more about CNC lathe machine price and how we can help you find the perfect machine for your needs!

Applications:

The CK6180 CNC lathe tooling is highly precise and efficient, making it an essential tool for a wide range of industries, including aerospace, automotive, and electronics manufacturing. The machine uses a variety of cutting tools, such as drills, boring tools, and turning tools, to remove material from the workpiece. It is programmed using software that specifies the size and shape of the workpiece, as well as the cutting operations to be performed.

This Flat Bed CNC Lathe Machine is capable of producing complex parts with tight tolerances and high accuracy, making it an ideal tool for modern manufacturing. The machining capacity of this machine is heavy duty, making it suitable for handling large and heavy workpieces with ease.

BAISHUN's CK6180 Flat Bed CNC Lathe Machine is certified with ISO and has a minimum order quantity of 1 set. The price is negotiable, and payment terms include T/T, L/C, and Western Union. The supply ability is 50 Set/Sets per month, and delivery time is 45 work days. The machine is packaged in export standard wooden case package, or as per customers' requirements.

Support and Services:

The Flat Bed CNC Lathe Machine is a precision machine designed to handle medium to heavy-duty cutting of large workpieces. It is equipped with advanced features such as a high-speed spindle, automatic tool changer, and a user-friendly control panel. Our technical support team is available to assist with any questions or issues related to the machine's operation and maintenance. We offer a range of services to ensure maximum performance and longevity of the machine, including regular maintenance, repairs, and upgrades. Our team of certified technicians is trained to provide expert service and support, ensuring that your machine operates at peak efficiency and productivity. Additionally, we provide training and consultation services to help you get the most out of your machine. Our training programs cover everything from basic operation to advanced programming techniques, and can be customized to meet your specific needs. With our support and services, you can be confident in the performance and reliability of your Flat Bed CNC Lathe Machine.

Packing and Shipping:

Product Packaging:

The Flat Bed CNC Lathe Machine will be packed in a wooden crate to ensure maximum protection during transportation.

All parts and accessories will be securely fastened and wrapped to prevent any damage.

The crate will be labeled with product information and handling instructions.

Shipping:

The Flat Bed CNC Lathe Machine will be shipped via a reliable shipping company.

Shipping fees will be calculated based on the destination and weight of the machine.

The shipping company will provide a tracking number for the customer to monitor the delivery progress.

Delivery times may vary depending on the destination and shipping method selected.

FAQ:

Q: What is the brand name of the Flat Bed CNC Lathe Machine?

A: The brand name of the Flat Bed CNC Lathe Machine is BAISHUN.

Q: What is the model number of the Flat Bed CNC Lathe Machine?

A: The model number of the Flat Bed CNC Lathe Machine is CK6180.

Q: Where is the Flat Bed CNC Lathe Machine manufactured?

A: The Flat Bed CNC Lathe Machine is manufactured in Henan, China.

Q: What is the minimum order quantity for the Flat Bed CNC Lathe Machine?

A: The minimum order quantity for the Flat Bed CNC Lathe Machine is 1 set.

Q: What are the payment terms for purchasing the Flat Bed CNC Lathe Machine?

A: The payment terms for purchasing the Flat Bed CNC Lathe Machine are T/T, L/C, and Western Union. Price is subject to negotiation.

Q: What is the supply ability of the Flat Bed CNC Lathe Machine?

A: The supply ability of the Flat Bed CNC Lathe Machine is 50 Set/Sets per month.

Q: What is the delivery time for the Flat Bed CNC Lathe Machine?

A: The delivery time for the Flat Bed CNC Lathe Machine is 45 work days.

Q: What are the packaging details for the Flat Bed CNC Lathe Machine?

A: The packaging details for the Flat Bed CNC Lathe Machine are export standard wooden case package, or as customers' requirement.

Q: What certifications does the Flat Bed CNC Lathe Machine have?

A: The Flat Bed CNC Lathe Machine has ISO certification.
