

380V Voltage Lathe Tool Post For 2500mm Max. Length Workpiece

Our Product Introduction

Basic Information

- Place of Origin: Henan, China
- Brand Name: BAISHUN MACHINERY
- Certification: ISO
- Model Number: CK5112
- Minimum Order Quantity: 1 set
- Price: Negotiation
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 45 work days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50 Set/Sets per Month

Product Specification

- Max. Height Of Work Piece: 2000mm
- Repeatability (X/Y/Z) (mm): ± 0.003
- Spindle Motor Power(kW): 55
- Machining Capacity: Medium Duty
- Weight (KG): 55000
- Max. Spindle Speed (r.p.m): 90 R.p.m
- Number Of Axes: 2
- Spindle Bore(mm): 105
- Highlight: **380V Lathe Tool, 2500mm Max. Length Lathe Tool**

Product Description

Product Description:

With a dimension of 6150*4400*5330mm, this CNC Vertical Turning Lathe is built to accommodate large workpieces and can handle a maximum turning diameter of 3500mm. It is equipped with 2 axes, providing flexibility and accuracy in machining processes.

The CNC Vertical Turning Lathe is powered by a 55kW spindle motor, allowing a maximum spindle speed of 90 R.p.m. This powerful motor ensures that the machine can handle heavy-duty tasks without compromising precision and speed.

This CNC Vertical Turning Lathe is equipped with state-of-the-art CNC controls that enable operators to program and execute complex machining operations with ease. This technology reduces human error, increases productivity, and ensures consistent quality in all workpieces.

The CNC Vertical Turning Lathe is ideal for industries that require high-volume and high-precision machining, such as aerospace, automotive, and energy. It can produce parts and components with tight tolerances and intricate designs, making it a versatile and reliable machine for various applications.

Our CNC Vertical Turning Lathe is built to last, with a durable and robust structure that can withstand the rigors of heavy-duty machining. Its advanced features and reliable performance make it a must-have for any manufacturing facility that requires precision and efficiency in metalworks.

Features:

Product Name: CNC Vertical Lathe Machine

No. Of Spindles: Twin

Spindle Motor Power(kW): 55

Machining Capacity: Medium Duty

Number Of Axes: 2

Max. Spindle Speed (r.p.m): 90 R.p.m

This CNC Vertical Lathe Machine is a double column vertical lathe with metal lathe tooling. It is a CNC turning lathe machine designed for medium duty machining.

Technical Parameters:

Product Category:	CNC Vertical Lathe Machine
Travel (X Axis)(mm):	1900 Mm
Max. Length Of Workpiece (mm):	2500
Dimension(L*W*H):	6150*4400*5330mm
Max. Spindle Speed (r.p.m):	90 R.p.m
Spindle Motor Power(kW):	55
Repeatability (X/Y/Z) (mm):	±0.003
Positioning Accuracy (mm):	±0.005
Tool Post Stations:	4
Voltage:	380V

This CNC Vertical Lathe Machine is a double column vertical lathe suitable for metalworking.

Applications:

This CNC metal lathe is a vertical lathe machine that is perfect for a wide range of applications. It has a maximum turning diameter of 3500mm and 4 tool post stations, making it ideal for large-scale projects. Plus, with twin spindles, it can handle even the most complex jobs with ease. The voltage is 380V and the travel (X Axis)(mm) is 1900mm.

Whether you're working in a production facility or a job shop, this cnc vertical turning lathe is a must-have tool. With its advanced features, it can handle a variety of materials, including steel, aluminum, and titanium. It's also perfect for a range of industries, including aerospace, automotive, and energy.

So if you're looking for a reliable and versatile CNC metal lathe, look no further than BAISHUN MACHINERY's CNC Vertical Lathe Machine. With its advanced features and ISO certification, you can be confident that it will meet all of your turning needs.

Support and Services:

The CNC Vertical Lathe Machine is a high-performance machine, designed to meet the needs of modern manufacturing. Our technical support and services are available to ensure that the machine operates at peak efficiency and productivity. Our services include:

Installation and commissioning of the machine

Training for operators and maintenance personnel

Regular maintenance and inspections

Repair and replacement of parts

24/7 technical support via phone or email

Upgrades and retrofits to improve machine performance and capabilities

We understand that downtime can be costly, so we strive to provide fast and reliable support to minimize any disruptions to your production. Our team of experienced technicians is dedicated to ensuring that your CNC Vertical Lathe Machine is up and running as quickly as possible.

Packing and Shipping:

Product Packaging:

The CNC Vertical Lathe Machine will be packaged in a sturdy wooden crate for maximum protection during transportation.

All necessary components and accessories will be securely fastened and protected with packaging materials to prevent damage during shipping.

The crate will be labeled with the product details, handling instructions, and any necessary warning labels.

Shipping:

Shipping will be arranged by our logistics team and will be delivered to the specified address provided by the customer.

Delivery time may vary depending on the location and shipping method chosen by the customer.

The customer will be notified of the shipment and provided with a tracking number to monitor the delivery status.

Upon delivery, the customer is responsible for inspecting the package for any damages and reporting it to the shipping company and our customer service team if any issues are found.

FAQ:

Q1: What is the brand name of the CNC Vertical Lathe Machine?

A1: The brand name for our CNC Vertical Lathe Machine is Baishun Machinery.

Q2: What is the model number of the CNC Vertical Lathe Machine?

A2: The model number for our CNC Vertical Lathe Machine is CK5112.

Q3: Where is the CNC Vertical Lathe Machine made?

A3: The CNC Vertical Lathe Machine is made in Henan, China.

Q4: What is the minimum order quantity for the CNC Vertical Lathe Machine?

A4: The minimum order quantity for our CNC Vertical Lathe Machine is 1 set.

Q5: What are the available payment terms for purchasing the CNC Vertical Lathe Machine?

A5: We accept T/T, L/C, and Western Union as payment terms for purchasing our CNC Vertical Lathe Machine. Price is negotiable depending on the payment terms.
