

55000 KG CNC Vertical Lathe Machine For High Precision And ±0.003 Repeatability X/Y/Z Mm

Basic Information

Place of Origin: Henan, China

Brand Name: BAISHUN MACHINERY

Certification: ISOModel Number: CK5112

Minimum Order 1 set

Quantity:

• Price: Negotiation

Packaging Details: Export standard wooden case package or

Negotiation with customers

• Delivery Time: 45 work days

Payment Terms: T/T, L/C, Western Union
Supply Ability: 50 Set/Sets per Month

Product Specification

Max. Length Of 2500

Workpiece (mm):

No. Of Spindles: TwinWeight (KG): 55000Travel (X Axis)(mm): 1900 Mm

 Spindle Motor Power(kW):

55

• Spindle Bore(mm): 105

• Travel (Z Axis)(mm): 1250 Mm

• Dimension(L*W*H): 6150*4400*5330mm

Highlight: High Precision CNC Vertical Lathe Machine,

55000 KG CNC Vertical Lathe Machine, ±0.003 Repeatability CNC Vertical Lathe

Machine

Product Description:

This CNC vertical lathe machine features 4 tool post stations, allowing for a variety of tooling options to be utilized during the metal turning process. This ensures that the CNC metal lathe is able to handle a wide range of materials and applications, making it a versatile addition to any metalworking shop.

As a CNC vertical lathe, this machine is designed to offer exceptional accuracy and precision in vertical turning applications. The high rigidity of the machine ensures that there is minimal vibration during operation, resulting in a smooth and precise finish on all workpieces. The dimensions of this CNC vertical lathe machine are 6150mm in length, 4400mm in width, and 5330mm in height. This ensures that it is able to handle large workpieces with ease, making it a valuable addition to any metalworking shop.

Overall, the Square Ram Tornos Para Metal Double Column CNC Vertical Lathe Machine Tool Post for Metal Turning is a high-precision CNC metal lathe that offers exceptional accuracy and repeatability in all axes. Whether you are looking to turn complex shapes and contours or simply need a versatile CNC vertical lathe machine for your metalworking shop, this machine is sure to meet your needs.

Features:

Product Name: Square Ram Tornos Para Metal Double Column CNC Vertical Lathe Machine Tool Post For Metal Turning

Width Of Bed (mm): 250 Mm Tool Post Stations: 4

Max. Turning Diameter: 3500mm Max. Spindle Speed (r.p.m): 90 r.p.m

Technical Parameters:

cnc lathe machine	cnc vertical lathe
Max. Length Of Workpiece (mm):	2500
Voltage:	380V
Repeatability (X/Y/Z) (mm):	±0.003
Number Of Axes:	2
Max. Height Of Wok Piece:	2000mm
Travel (X Axis)(mm):	1900 Mm
Tool Post Stations:	4
Machining Capacity:	Medium Duty
Weight (KG):	55000
Positioning Accuracy (mm):	±0.005
lathe tool post	cnc machine specifications

Applications:

The twin spindles of the CNC Vertical Lathe Machine allow for increased productivity and accuracy, while the square ram design provides stability and precision during the machining process. The CNC control system ensures that the machine can be programmed to meet the specific needs of each project, making it a valuable tool for any metalworking operation.

This cnc vertical lathe is perfect for use in a variety of industries, including automotive, aerospace, and manufacturing. It can be used for turning large components such as wheels, gears, and shafts, as well as smaller parts such as valve bodies and fittings. The machine's high level of accuracy and repeatability makes it ideal for producing parts with complex geometries, ensuring that each finished product meets the required specifications.

BAISHUN MACHINERY'S CNC Vertical Lathe Machine is manufactured in Henan, China, and is certified with ISO for quality and reliability. The minimum order quantity is 1 set, and the price is negotiable. Payment terms include T/T, L/C, and Western Union, and the supply ability is 50 Set/Sets per Month. The delivery time is 45 work days, and packaging details include an export standard wooden case package or negotiation with customers.

Overall, the Square Ram Tornos Para Metal Double Column Cnc Vertical Lathe Machine Tool Post For Metal Turning is a highly efficient and versatile machine tool designed for medium duty machining of metal components. It can be used in a variety of applications and industries, making it a valuable tool for any metalworking operation.

Support and Services:

The CNC Vertical Lathe Machine comes with comprehensive technical support and services to ensure smooth operation and optimal performance. Our team of experienced technicians is always available to provide assistance with installation, training, and maintenance. We offer regular software updates and upgrades to keep your machine up-to-date with the latest technology.

We also provide troubleshooting services to address any issues that may arise during operation. Our technicians can diagnose and fix problems remotely or on-site for minimal downtime and disruption to your production process.

Additionally, we offer customization services to tailor the machine to your specific needs and requirements. Our engineers can work with you to design and implement custom tooling, fixtures, and automation solutions to optimize your production process and increase efficiency.

At CNC Vertical Lathe Machine, we are committed to providing quality technical support and services to ensure the success of your operations. Contact us today for more information.

Packing and Shipping:

Product Packaging:

The CNC vertical lathe machine will be securely packed in a wooden crate to prevent any damage during transportation.

All components and accessories will be carefully wrapped and cushioned to ensure safe delivery.

The crate will be labeled with the product name, model number, and shipping address.

Shipping

The CNC vertical lathe machine will be shipped via a reliable and reputable shipping carrier.

The shipping cost will be calculated based on the destination and weight of the machine.

The estimated delivery time will be provided to the customer upon request.

The customer will be notified of the shipping details and tracking information once the machine has been shipped.

FAQ:

What is the brand name of this CNC vertical lathe machine?

The brand name of this CNC vertical lathe machine is BAISHUN MACHINERY.

2

What is the model number of this CNC vertical lathe machine?

The model number of this CNC vertical lathe machine is CK5112.

3.

Where is this CNC vertical lathe machine made?

This CNC vertical lathe machine is made in Henan, China.

4

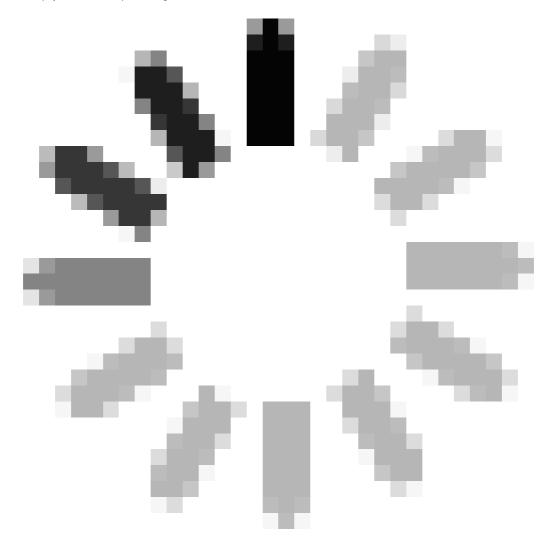

What is the minimum order quantity for this CNC vertical lathe machine?

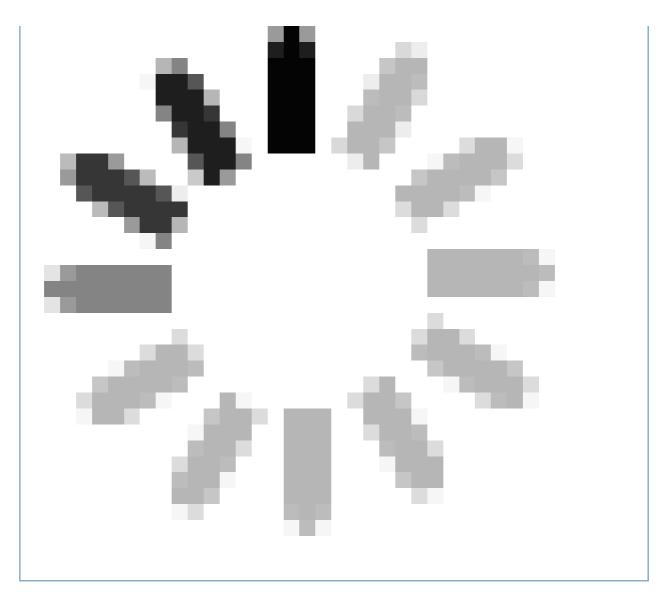

The minimum order quantity for this CNC vertical lathe machine is 1 set.

5

What are the payment terms for purchasing this CNC vertical lathe machine?

The payment terms for purchasing this CNC vertical lathe machine are T/T, L/C, and Western Union.
