

Cnc Horizontal Boring Milling Machine With Ce Cylinder Boring Milling

Basic Information

• Place of Origin: China

Brand Name: BAISHUN MACHINERY

Certification: ISO
Model Number: TK6813
Minimum Order Quantity: 1 set

Price: USD79000/Set

• Packaging Details: 1. Outside we will pack the product with

plastic to prevent wet. 2. Outside of the machine will be packed by strong wooden pallet. 3. If there requirement of the package, we can customized based on the detail

requirement.

• Delivery Time: 4 month

Payment Terms: L/C, T/T, Western Union
 Supply Ability: 10 Set/Sets per Month

Product Description

Siemens Cnc Horizontal Boring Milling Machine With Ce Cylinder Boring Milling For Sale

TK6813 CNC planer boring and milling machine is a kind of machine tool with large torque, high efficiency, high rigidity and advanced function. According to the user's requirements, with different systems, different precision, different turntable size, can form different grades of machine tools of different specifications. It is a kind of universal machine tool with the most extensive use, belonging to one of the machine tools with large quantity and wide range. Its working performance is mainly boring and milling, and it can also be used for drilling, reaming, milling and other processes. It is especially suitable for processing multi-hole parts, box-shaped parts with precise pitch requirements, rack parts and mould parts. After the workpiece is clamped once, Automatically complete milling, boring, drilling, reaming, milling, tapping and other processes. It can realize five-axis control, four-axis linkage, circular interpolation and three-dimensional surface processing. With the milling head, flat turning plate and other accessories, so as to expand the processing capacity of the machine.

TK68 CNC Planer type boring and milling machine:

Item	Unit	TK6813	TK6816
Spindle diameter	mm	130	160
Spindle taper		ISO 50	ISO 50
Max. spindle speed	rpm	2-1500	2-1000
Motor power-Servo	KW	22/30	30/40

The overall design layout of the machine tool is that the vertical and horizontal bed is T-shaped structure, the column moves longitudinally, and the worktable moves horizontally. The headstock moves up and down, and the worktable rotates. There is no square ram, only the spindle moves forward and backward. The main parts are column, lathe bed, slide, spindle box head, worktable rotary table, worktable slide and worktable lathe bed.

The spindle box is a closed structure; two rectangular guide rails are designed on the upright column, and reinforcing ribs are arranged inside the upright column to obtain high rigidity and high shock resistance. The upright column is rigidly connected with the sliding seat, and the sliding seat and the upright column are driven to move along the lathe bed by a pre-tightening double-nut ball screw pair. The ball screw nut is installed on the sliding seat, the ball screw is fixed on the lathe bed, and the servo motor drives the screw to rotate through the precision gear reduction box so as to drive the column to move.

PRODUCTION WORKSHOP

CAREFUL AND RIGOROUS, PRECISE ASSEMBLY, EVERY PLACE IS DELICA TEEVERY SILK IS OUR DEDICATED EFFORT.

1. How can I choose the most suitable machines ?

A: You can choose the exact model by yourself. Or you can tell us your specifications, to let us choose the best model for you, too. You can also send us the product drawing, and we will choose the most suitable machines for you.

2. When do you deliver?

A: It depends on the machine and model you choose. Mostly 2 months - 4 months. You can send us a message or mail to check exact delivery time.Our manufactory is very high degree of modernization, brand positioning the global market,

3. Whether to provide quality assurance and complete after-sales support?

A: Yes!Our machine is guaranteed for 12 months and supports

on-site installation if necessary. Commissioning, technical guidance and after-sales maintenance support.

4. What's the Payment Terms ?

A: T/T 30% down payment when order ,70% balance payment before shipment;

5. What's the MOQ?

A: 1 set (Only some low cost machines will be more than 1 set)

6. How is the warranty?

A: Our machine is guaranteed for 12 months and supports on-site installation if necessary.

Commissioning, technical guidance and after-sales maintenance support.

7. If I have a problem setting up/ getting it running problem, will you be available by email to assist in solving the problem.

A: Video technical support, online service, we can answer you in 24 hours.

We are a direct-sale machine manufacturer, not a trading company, which means we can offer you high quality product with the best prices.
