

Accuracy Universal Metal Lathe Machine Flange Facing Lathe Machine For Metal Fabrication Turning

Our Product Introduction

for more products please visit us on lathemach.com

Basic Information

- Place of Origin: Henan, China
- Brand Name: Baishun
- Certification: ISO
- Model Number: C6020
- Minimum Order Quantity: 1 set
- Price: Negotiation
- Packaging Details: Export standard wooden case or negotiation with customer.
- Delivery Time: 45 work days
- Payment Terms: T/T,L/C,Western Union
- Supply Ability: 80 Set/Sets per Month

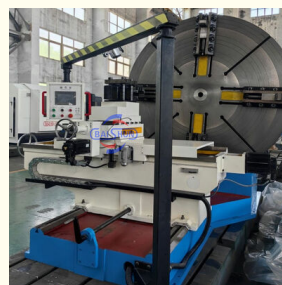

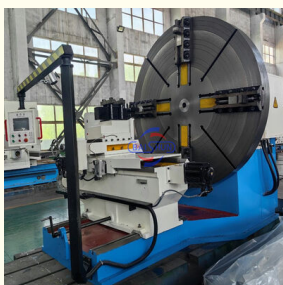

Product Specification

- Product Name: Flange Facing Lathe Machine
- Machine Type: C6020
- Max. Turned Length (mm): 2000 Mm
- Chuck Diameter: 1600mm
- Max. Length Of Workpiece (mm): 600mm
- Range Of Spindle Speed(r.p.m): 12- 94r.p.m
- Machining Capacity: Medium Duty
- Type: Horizontal
- Spindle Motor Power(kW): 15
- Keyword: Flange Facing Lathe Machine
- Function: Metal Turning
- Automatic Grade: Manual Or CNC
- Highlight: **universal metal lathe machine, flange facing lathe machine,**

Product Description

Accuracy Universal Metal Lathe Machine Flange Facing Lathe Machine For Metal Fabrication Turning

Product Overview

The face lathe includes a large chuck or faceplate to hold the flange securely during machining, a range of cutting tools to accommodate different sizes and shapes of workpieces, and controls to adjust the depth and angle of cuts as needed. This machine is especially suitable for low-speed, high-load cutting operations.

Featuring high carrying capacity, high rigidity, optimal appearance design, and easy operation, it is primarily used for turning neutral mechanical parts with relatively large diameters, such as tire molds, large diameter flanges, tube plates, turbine parts, end enclosures, and more. Widely applied in chemical engineering, heavy-duty machining, automobile manufacturing, mining and railway equipment, and aviation parts processing and manufacturing. Available in both conventional and CNC types.

Technical Specifications

Item	Unit	C6010	C6016	C6020	C6025	C6030
Max. turning diameter	mm	1000	1600	2000	2500	3000

Item	Unit	C6010	C6016	C6020	C6025	C6030
Chuck diameter	mm	800	1400	1600	2000	2500
Max. length of work pieces	mm	200	400	600	600	600
Max weight of workpiece	T	1	2	3	3	5
Power of main motor	kW	11	11	15	15	22
Spindle speed	r/min	8-120	16-128	12-94	12-94	4-40
Spindle diameter	mm	190	200	200	200	300
Feed way of tool rest	Infinitely variable frequency					
Horizontal stroke	mm	320	320	320	320	320
Longitudinal travel	mm	500	800	900	1400	1400
Weight	T	4	5	8	10	17

Company Profile

Henan Baishun Machinery Equipment Co., Ltd is a professional manufacturer specializing in slotting machines, vertical lathe machines, CNC vertical lathe machines, CNC horizontal lathe machines, roll lathe machines, gear hobbing machines, pole erection machines, and shredder machines. With 14 years of experience in lathe machines, we have exported our products to Peru, Brazil, Chile, Mexico, Italy, Indonesia, Sri Lanka, Russia, Uzbekistan, and other countries.

Our company attaches great importance to international technical exchanges and cooperation, having introduced advanced technology and craft from the United States, Germany, Australia, and other countries. We have established international advanced production lines and first-class modern testing bases. Welcome all friends for visiting, communicating, and cooperating.

Packaging & Delivery

Our Services

We provide 7x24-hour online pre-sale service, engineer follow-up order service, and logistics delivery operation service. We also offer installation services. With more than 10 years of experience in various markets, we can help customers successfully complete a series of services from purchasing to goods customs clearance, saving time and reducing costs in all aspects.

Our Advantages

- CE and ISO certification
- Full production tracking
- Professional engineers guarantee the highest quality
- Multiple suppliers as alternatives, ensuring competitive pricing
- Sales staff with more than 10 years experience for pre-sales and after-sales support
- OEM production available to meet customer needs
- Low MOQ (1 unit) available
- 24-hour technical support

Warranty & Support

Warranty Period: During the warranty period (one year), if any parts break due to quality problems, we will supply replacements free of charge by express.

Out of Warranty: After the warranty period, if you have any questions, you can contact us, and we will provide our best service as usual.

- Technical support online service provided
- Technical files service provided
- Machine operation video provided
- On-site training service provided
- Spare parts replacement and repair service provided
- All questions will be replied within 24 hours
