

## 4-Jaws Chuck PLC Control Spindle Flange Turning Tools Machine With 1600mm Swing Diameter

### Our Product Introduction

#### Basic Information

- Place of Origin: Henan, China
- Brand Name: Baishun
- Certification: ISO
- Model Number: C6020
- Minimum Order Quantity: 1 set
- Price: Negotiation
- Packaging Details: Export standard wooden case or negotiation with customer.
- Delivery Time: 45 work days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 80 Set/Sets per Month

#### Product Specification

- Product Name: Flange Turning Tools Machine
- Machine Type: C6020
- Max. Turned Length (mm): 2000 Mm
- Chuck Diameter: 1600mm
- Max. Length Of Workpiece (mm): 600mm
- Range Of Spindle Speed(r.p.m): 12- 94r.p.m
- Machining Capacity: Medium Duty
- Type: Horizontal
- Spindle Motor Power(kW): 15
- Keyword: Flange Turning Tools Machine
- Function: Metal Turning
- Automatic Grade: Manual Or CNC
- Highlight: 4-jaws chuck face lathe machine, PLC control spindle flange turning tools,

## Product Description

### 4-Jaws Chuck PLC Control Spindle Flange Turning Tools Machine With 1600mm Swing Diameter

#### Product Overview

The face lathe includes a large chuck or faceplate to hold the flange securely during machining, a range of cutting tools to accommodate different sizes and shapes of work pieces, and controls to adjust the depth and angle of the cuts as needed. This machine is especially suitable for low speed high load cutting applications.

Featuring high carrying capacity, high rigidity, optimal appearance design and easy operation, it is mainly used in turning neutral mechanical parts with relatively large diameters, such as tire molds, large diameter flanges, tube plates, turbine parts, end enclosures, etc. Widely applied in chemical engineering, heavy duty machining, automobile manufacturing, mining and railway equipment, and aviation parts processing and manufacturing. Available in both conventional and CNC types.

## Company Profile

Henan Baishun Machinery Equipment Co., Ltd is a professional manufacturer specializing in slotting machines, vertical lathe machines, CNC vertical lathe machines, CNC horizontal lathe machines, roll lathe machines, gear hobbing machines, pole erection machines, and shredder machines. With 14 years of experience in lathe machines, we have exported our products to Peru, Brazil, Chile, Mexico, Italy, Indonesia, Sri Lanka, Russia, and Uzbekistan.

Our company attaches great importance to international technical exchanges and cooperation, having introduced advanced technology and craft from United States, Germany, Australia and other countries. We have established international advanced production lines and first-class modern testing bases. Welcome all friends for visiting, communicating and cooperating.

## Packaging & Delivery

## Our Services

We provide 7x24-hour online pre-sale service, engineer follow-up order service, and logistics delivery operation service. We also offer installation services. With more than 10 years of experience in various markets, we can help customers successfully complete a series of services from purchasing to goods customs clearance, saving time and reducing costs in all aspects.

## Our Advantages

- CE and ISO certification
- Full production tracking
- Professional engineers ensuring highest quality
- Multiple supplier alternatives for competitive pricing
- Sales staff with over 10 years experience
- OEM production available
- Low MOQ (1 unit) available
- 24 hours technical support

## Warranty & Support

**Warranty Period:** One year. During warranty period, if any parts break due to quality problems, we will supply replacements free of charge by express.

Out of warranty period, we continue to provide our best service as usual, including:

- Technical support online service
- Technical files service
- Machine operation video provided

On-site training service

Spare parts replacement and repair service

All questions replied within 24 hours
