CNC Deep Hole Vertical Slotting Machine For Metal Planer & Slotting Machines

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Baishun
- Certification: ISO
- Model Number: BK7032
- Minimum Order Quantity: 1 Set
- Price: Negotiation
- Packaging Details: Export standard wooden case package
- Delivery Time: 20 working days
- Payment Terms: T/T,L/C,Western Union
- Supply Ability: 100Set/Sets per Month

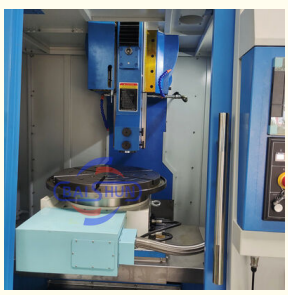

Product Specification

- Max Slotting Length: 320mm
- Ram Speed: 10-200 Times/min
- Main Motor Power: 11kW
- Max Load Capacity: 350kg
- Table Size: 400mm
- Machine Dimensions: 2500*2100*2870mm
- Highlight: **CNC deep hole slotting machine**, **vertical metal slotting machine**, **metal planer slotting machine**

Product Description

CNC Deep Hole Vertical Slotting Machine For Metal Planer & Slotting Machines:

This CNC Slot machines are used for interpolation plane, forming surface and Keyway Etc. And can insert the inclination in the 10° Mold and other within the scope of etc. work matter,Enterprise suitable for single or small batch production.

The main performance characteristics:
1.The working table of the machine tool is provided with three different directions of feed (longitudinal, horizontal and rotary), therefore work object go through once clamping, Several surfaces in the machine tool machining
2.Hydraulic transmission mechanism with sliding pillow reciprocating motion and hydraulic feed device for working table.
3.The sliding pillow has the same speed in every stroke, and the movement speed of the ram and the working table can be adjusted
continuously.
4.Hydraulic control table have ram commutation oil for oil reversing mechanism, In addition to hydraulic and manual feed outer,
Even there single motor drive vertical, horizontal and rotary fast moving.
5.Use hydraulic feed the slotting machine, Is when the work is over turning back instantaneous feed, Therefore be better than mechanical slotting machine used drum wheel feed.

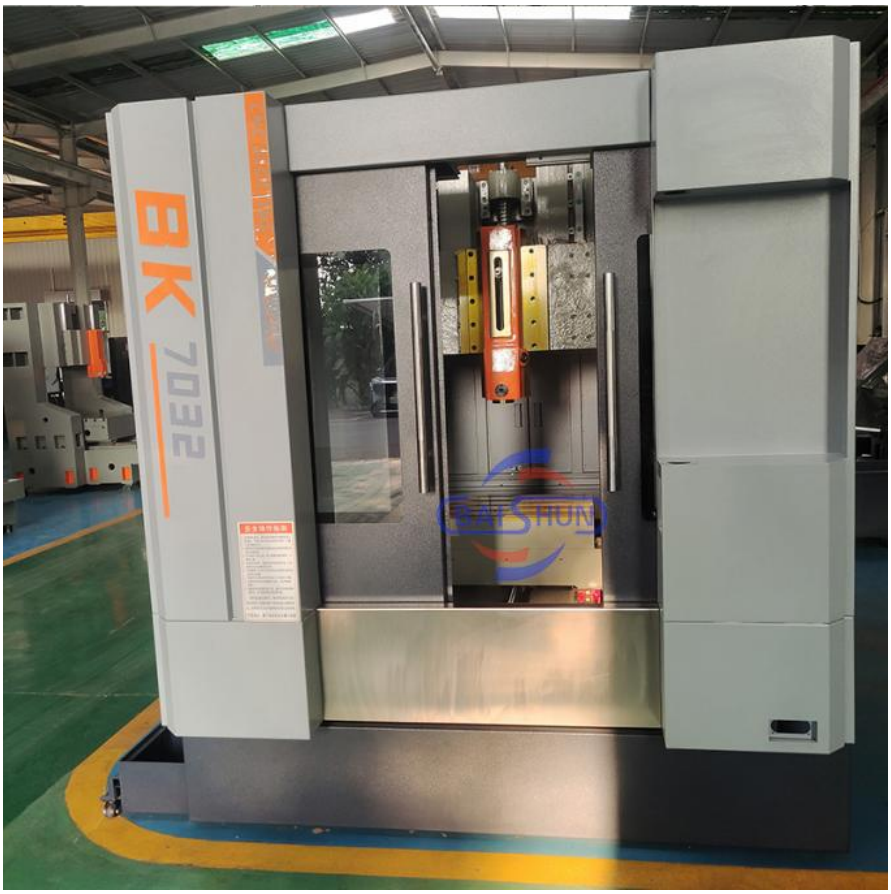

Application:
1. This machine be used for interpolation plane, forming surface and Keyway Etc. And can insert the inclination in the 10° Mold
and other within the scope of etc. work matter.
2. Enterprise suitable for single or small batch production.

Product main technical parameters:

BK7032	Specification	Movement	positioning accuracy	Load accuracy
Max.slotting length	320mm			
Max.installation size of workpiece	300mm			
Max.load capacity	350kg			
Max.cutting width	0.5-20mm			
Ram reciprocating speed per minute	10—200			
Ram vertical adjustment range	220mm			
Max. tool holder size	Φ40			
Diameter of rotary table	400mm	C axis		
Longitudinal travel distance of table	600mm	Y axis	0.0015mm	0.01mm
Lateral travel distance of table	100mm	X axis	0.003mm	0.01mm
Longitudinal and lateral feed range of table	0.01-1mm Step less	XC axis	/	/
Height from plug to work surface	450mm	Z		
Permanent magnet servo brake motor	11kw step less	Z axis	0.1mm	0.3mm
CNC SYSTEM	GSK980MDi			
Rail refueling pump	Automatic refueling pump			
Casting material	HT250			
Dimension	2500*2100*2870mm			
Gross Weight	5000KG
